clearly marked annual rings. It is straight grained with a fine uniform texture.

Colour	Pale golden brown to pale reddish brown
Density	590kg/m ³ when dried
Durability	Slightly Durable
Movement	Small
Drying	Difficult to dry due to its high resin content, therefore it should be dried slowly to prevent checking and other drying defects
Texture	Fine
Working Qualities	Machines well but has a tendency to split on nailing and therefore pre drilling is recommended particularly at board ends when fixing
Uses	Cladding, Decking
